IDENTIFIERS	Canada; United States

ABSTRACT

Curriculum materials centers affiliated with colleges and universities in the United States and Canada that offer accredited programs in education are listed in this directory, which is based on the responses to a survey conducted in 1985. The 175 entries include centers in 42 states, the District of Columbia, and five in Canada. Arranged by state, each entry includes the names of the center and of the institution, the address and telephone number, the name of the director, a brief description of the center's holdings, the materials budget, the classification system used, the composition of the staff, the loan policy, and the hours of operation. Also included--as applicable--are special collections, cooperative affiliations, additional information, a listing of any materials returned with the questionnaire that are available through the American Library Association (ALA) library, and/or notes. An alphabetical listing of the centers in each state together with their addresses concludes the directory. (MES)

SECOND EDITION

INTRODUCTION

As explained in the first edition, this Directory grew out of a need expressed in the Curriculum Materials Committee of the Education and Behavioral Sciences Section of the Association of College and Research Libraries.

The first survey was conducted in 1979 with 189 returns. The full results of this survey are in an article included in ERIC's Resources in Education, March, 1981 (ED 194 110).

The current survey was completed in 1985. Questionnaires were sent to the largest education programs accredited by the National Council for Accreditation of Teacher Education. Additional centers requested and were accepted for inclusion. Returns were received from 170 curriculum centers in 42 states, the District of Columbia, and 5 in Canada.

Handbooks, brochures, and other materials included with the survey were sent to the ALA Headquarters Library in Chicago where they may be borrowed.

We wish to express our appreciation to the Curriculum Center directors who provided information and to Doris Van Wert, the secretary who typed the manuscript. We are also indebted to the University for its support of this project.

CURRICULUM MATERIALS CENTER

Margaret Ann Link
(Acting)

The Curriculum Materials Center was established by the School of Education in 1965 in response to the State Board of Education requirement that such a unit was necessary for accreditation of the teacher education program. Materials that already existed in the School were collected and to these were added copies of standardized tests and textbooks which had been adopted by the State Textbook Commission. In 1972 audiovisual materials and equipment were added and the Center was charged with supporting all programs of the School.

HOLDINGS:	1,700 textbooks and workbooks, including curriculum guides; 8,225 monographs; 2,200 audiovisual materials; 150 computer software programs; 110 pieces audiovisual equipment (test library in separate facility)
MATERIALS BUDGET:	$20,000, including an allocation from the main library
CLASSIFICATION SYSTEMS:	Library of Congress; locally devised system for textbooks
STAFF:	2 professionals; 1 1/2 support staff; 74 hours of weekly student help
LOAN POLICY:	3 weeks for books; 1 week for audiovisual materials; 3 days for films
HOURS OPEN:	Mon.-Thurs. - 8 a.m.-9 p.m. Fri. - 8 a.m.-5 p.m.
SPECIAL COLLECTIONS	Special Education (Dean's Grant), Asian/African materials, reading materials, museum replicas
ADDITIONAL INFORMATION:	We serve as a branch library for the School of Education. Psychology is included in the School.
